GROUP AIR SOLUTION

New Group Air Booking Link Within Concur for All Travelers Including Guest and Non-Profiled Travelers

SEAMLESS AIR BOOKINGS

HOTEL BOOKINGS

TRACKING & REPORTING

GENERATE MORE AIR BOOKINGS IN CONCUR TODAY

Ideal for Human Resources, Travel Managers and TMCs, Groupize Air simplifies corporate guest travel within SAP CONCUR to deliver a seamless user experience for non-profiled guest travelers.

Whether or not your travelers need a hotel room, Groupize Air can generate a unique, sinle-use, booking link for profiled or non-profiled travelers so they can book their air in a unique session which leverages group specific rules, including payment options.

Group Air delivers a two-way integrated guest management platform designed exclusively for guest travelers including recruits, consultants, interns, athletes, trainings, project teams, store openings, extended stays, volunteers and customers.

It takes less than 5-10 minutes to setup and delivers significant savings as users can direct travelers to specific negotiated hotels and specific air booking patterns.
